

The Forge Wars: Inferno of the Titans

A D&D 5th Edition Campaign Adventure (3 of 3)

For Characters Level 7-10

Adventure Length: 8-10 sessions

Party Size: 4-6 characters

Adventure Type: Epic Warfare / Planar Adventure / Heroic Climax

Themes: Epic heroism, planar warfare, ultimate sacrifice, the triumph of unity

Campaign Climax: The Forge Wars

The final chapter of The Forge Wars sees the heroes lead a desperate defense against the fire giant invasion while launching a daring assault on the fire giants' planar stronghold to end the threat permanently.

Campaign Completion:

1. **Embers of Rebellion** (Levels 1-4): ✓ Local conspiracy exposed
 2. **Flames of Conspiracy** (Levels 4-7): ✓ Regional alliance formed, ancient binding renewed
 3. **Inferno of the Titans** (Levels 7-10): **FINAL** - Direct war with fire giant invasion

Adventure Background

Six months have passed since the binding ritual reinforced the planar barriers between the Material Plane and the Elemental Plane of Fire. The regional alliance has used this time to prepare defenses, train armies, and strengthen magical protections. However, the fire giants have not been idle. Enraged by the interference with their centuries-long plan, they have abandoned subtlety for overwhelming force.

The Current Crisis: Rather than wait for new infiltration opportunities, the fire giants have committed to a massive invasion through the remaining planar portals before they can be permanently sealed. Led by Overlord Pyroclasm the Eternal, an ancient fire giant lord who personally fought in the original wars centuries ago, they bring an army unlike anything the surface world has seen: fire giants, red dragons, elemental armies, and corrupted mortals from multiple planes.

The Stakes: This is not merely a regional conflict but a battle for the future of surface civilization. If the fire giants establish permanent strongholds in the Material Plane, they will use them as staging grounds to conquer the entire continent. The regional alliance represents the only organized resistance capable of stopping them.

The Heroes' Role: The party has evolved from local investigators to legendary heroes and military commanders. They must lead the alliance's response while also undertaking the most dangerous mission of all: a direct assault on the fire giants' stronghold in the Elemental Plane of Fire to eliminate the threat at its source.

The Plan: While alliance armies hold defensive positions and protect the remaining portals, the party will lead an elite strike force through enemy lines into the fire giants' home plane. There, they must destroy the Eternal Forge, a massive magical construct that has been powering the fire giants' invasion for centuries, and defeat Overlord Pyroclasm before he can complete his ultimate weapon: the Dominion Crown, an artifact that would give him control over all fire-based magic in multiple planes.

The Fire Giant Invasion

The Invasion Force

Overlord Pyroclasm's Army:

- **Fire Giant Legion:** 200+ fire giants including elite commanders and specialized units
- **Dragon Wing:** 12 adult red dragons led by an ancient red dragon
- **Elemental Horde:** Thousands of fire elementals, salamanders, and magma creatures
- **Corrupted Auxiliaries:** Human, dwarf, and other surface-dweller collaborators enhanced with fire magic
- **Siege Engines:** Massive war machines designed for both material and planar warfare

Invasion Strategy:

1. **Portal Assault:** Simultaneous attacks through all remaining planar portals
2. **Dragon Raids:** Aerial superiority to disrupt alliance communications and supply lines
3. **Siege Warfare:** Establishing fortified positions around each portal to create permanent footholds
4. **Terror Campaigns:** Devastating civilian targets to break alliance morale
5. **Magical Dominance:** Using the power of the Eternal Forge to enhance all fire giant forces

The Alliance Response

Combined Forces:

- **Royal Army of Valdris:** 5,000 professional soldiers led by General Amara Ironwill
- **Steelhold Militia:** 3,000 reformed workers and mercenaries coordinated by Elena Steelheart
- **Hammerfall Resistance:** 2,000 dwarven warriors freed from fire giant control

- **Goldenvale Navy:** 50 warships adapted for both naval and planar combat
- **Ironspire Reformed Legion:** 4,000 soldiers purged of fire giant influence
- **Magical Support:** Archmage Lysander's Circle of 20+ powerful spellcasters

Defense Strategy:

1. **Portal Defense:** Fortified positions around each remaining portal
2. **Mobile Response:** Fast-moving units to counter dragon raids and breakthrough attempts
3. **Magical Countermeasures:** Coordinated spellcasting to disrupt fire giant magic
4. **Civilian Evacuation:** Protecting non-combatants while maintaining war production
5. **Elite Strike Force:** The party's mission to eliminate the threat at its source

The Three Phases of War

Phase 1: The Initial Assault (Sessions 1-3)

- Fire giants launch coordinated attacks through all portals simultaneously
- Alliance forces struggle to contain multiple breakthrough attempts
- Party leads critical defense missions while preparing for counterattack

Phase 2: The Planar Expedition (Sessions 4-7)

- Alliance achieves temporary stability, allowing for offensive operations
- Party leads strike force through portal into Elemental Plane of Fire
- Navigate fire giant stronghold while alliance maintains defensive positions

Phase 3: The Final Battle (Sessions 8-10)

- Climactic confrontation in the Eternal Forge chamber
- Party faces Overlord Pyroclasm while alliance battles final fire giant reserves
- Epic conclusion determining the fate of multiple planes

Adventure Hooks

The War Council

The alliance war council formally appoints the party as supreme commanders of the strike force mission, with authority to coordinate with any alliance unit and access to the best equipment and magical support available.

The Ancient Prophecy

Archmage Lysander reveals a prophecy from the original fire giant wars: "When flame seeks dominion over stone and steel, heroes born of common earth shall walk the roads of fire to quench the eternal flame." The party perfectly fits the prophecy's description.

The Personal Vendetta

Overlord Pyroclasm has specifically targeted the party for elimination, sending assassins and making personal threats. The war becomes personal when fire giant raids specifically target their allies and loved ones.

The Desperate Gambit

Intelligence reveals that the fire giants are close to completing the Dominion Crown. If successful, they will become too powerful to defeat through conventional warfare. The strike force mission becomes a race against time.

The Sacrifice Understood

The party learns that someone must remain in the Elemental Plane of Fire to permanently seal the portals from that side. They accept the mission knowing it may be one-way, adding personal stakes to the epic conclusion.

Act I: The Siege Begins

Scene 1: The War Breaks

Setting: The party is at alliance headquarters when simultaneous attacks begin at all portal sites. Magical communication networks light up with emergency reports as fire giant armies pour through dimensional gateways.

The Opening Assault:

- **Portal Alpha** (Ironhaven): Fire giant main force with siege engines
- **Portal Beta** (Steelhold): Dragon-led aerial assault on the city
- **Portal Gamma** (Hammerfall): Elemental horde overwhelming dwarven defenses
- **Portal Delta** (Goldenvale): Naval forces attacking coastal positions

- **Portal Echo (Ironspire):** Diversionary attack to split alliance attention

Immediate Crisis: Alliance forces are stretched thin across multiple fronts. The party must choose which crisis to address first while coordinating overall response.

Command Decisions:

- **Priority Assessment:** Which portal breach poses the greatest threat?
- **Resource Allocation:** How to distribute limited elite forces?
- **Strategic Reserves:** Whether to commit reserves early or hold them back?
- **Communication:** Maintaining contact with scattered alliance units

Scene 2: The Dragon Wing Assault

Setting: Ancient red dragon Pyrothane leads 12 adult red dragons in coordinated strikes against alliance positions, targeting command posts, supply depots, and communication centers.

The Aerial Campaign:

- **Command Center Attack:** Dragons attempt to decapitate alliance leadership
- **Supply Line Disruption:** Targeting food, weapons, and magical component stockpiles
- **Communication Breakdown:** Destroying magical communication networks
- **Terror Bombing:** Attacking civilian areas to break alliance morale

The Party's Response:

- **Dragon Combat:** Direct aerial confrontation using magical flight or allied mounts
- **Anti-Dragon Defense:** Coordinating ground-based magical and siege weapon responses
- **Strategic Protection:** Defending critical infrastructure and leadership
- **Counter-Attack:** Using dragons' absence from portal defense to launch ground assaults

Epic Dragon Battle: The party must engage multiple dragons simultaneously while protecting alliance positions. Victory requires tactical coordination, environmental advantages, and support from alliance spellcasters.

Scene 3: The Portal Breakthrough

Setting: Despite alliance efforts, fire giants achieve a major breakthrough at one portal site, establishing a fortified beachhead in the Material Plane.

The Fortification Process:

- **Bridgehead Expansion:** Fire giants rapidly fortify their position
- **Portal Enhancement:** Magical modifications to allow larger forces through
- **Supply Line Establishment:** Creating sustainable invasion logistics
- **Local Exploitation:** Enslaving nearby populations and resources

Counterattack Mission:

- **Reconnaissance:** Gathering intelligence on fire giant positions and strength
- **Alliance Coordination:** Working with multiple military units in combined assault
- **Objective Priority:** Destroying portal enhancement vs. eliminating forces vs. rescuing civilians
- **Tactical Innovation:** Developing new strategies for fighting fire giants in prepared positions

The Turning Point: Success or failure here determines whether the alliance can contain the invasion or must fall back to secondary defensive lines.

Act II: The Planar Assault

Scene 4: Preparing for the Impossible

Setting: With alliance forces stabilizing defensive positions, the war council approves the strike force mission to assault the fire giants' home plane.

Mission Planning:

- **Team Selection:** Choosing elite specialists for the planar expedition
- **Equipment Preparation:** Magical gear for surviving the Elemental Plane of Fire
- **Intelligence Gathering:** Learning about fire giant stronghold layout and defenses
- **Exit Strategy:** Planning for return journey or permanent portal closure

The Strike Force:

- **The Party:** Primary mission commanders and heroes
- **Arcane Specialist:** High-level wizard for magical support and portal navigation
- **Divine Champion:** Paladin or cleric for healing and protection from evil
- **Elemental Guide:** Genasi or elemental creature familiar with the fire plane
- **Military Commander:** Elite officer for tactical coordination
- **Total Force:** 12-15 specialists, small enough for stealth but powerful enough for success

Magical Preparations:

- **Environmental Protection:** Spells and items for surviving extreme heat and fire damage
- **Planar Navigation:** Magic for finding objectives in an alien environment
- **Communication:** Maintaining contact with Material Plane forces
- **Emergency Contingencies:** Escape routes and backup plans

Scene 5: Through the Portal of Flames

Setting: The strike force enters the Elemental Plane of Fire through a contested portal, emerging into a realm of eternal flame and molten landscapes.

The Fire Plane Environment:

- **Extreme Heat:** Constant Constitution saves and fire damage
- **Alien Geography:** Floating islands of stone in seas of lava
- **Hostile Wildlife:** Native elementals and fire creatures
- **Magical Interference:** Spells behave differently in elemental environment

Navigation Challenges:

- **Landmark Recognition:** Finding the way to the fire giant stronghold
- **Environmental Hazards:** Lava flows, fire storms, and unstable terrain
- **Native Hostility:** Elemental creatures viewing the party as invaders
- **Magical Disorientation:** Planar effects confusing direction and distance

First Contact with Fire Giant Forces:

- **Patrol Encounters:** Small fire giant scouting parties
- **Defensive Positions:** Fortified checkpoints controlling travel routes
- **Alarm Systems:** Magical early warning networks throughout the plane
- **Response Forces:** Elite fire giant units rushing to contain intrusion

Scene 6: The Salamander City

Setting: The strike force must pass through or around a massive salamander city allied with the fire giants, containing thousands of hostile creatures.

The City of Emberpeak:

- **Population:** 10,000+ salamanders, fire elementals, and other flame creatures
- **Strategic Importance:** Controls the main route to the fire giant stronghold
- **Defenses:** Massive walls of solidified lava, fire giant artillery, and magical protections
- **Politics:** Complex relationships between salamander nobles and fire giant overlords

Approach Options:

- **Direct Assault:** Fighting through the city's defenses with allied force
- **Stealth Infiltration:** Sneaking through using disguises and magical concealment
- **Diplomatic Contact:** Attempting to negotiate safe passage or neutral status
- **Environmental Bypass:** Finding alternate routes through dangerous but unguarded terrain

The Salamander Court: If diplomatic contact is attempted:

- **Salamander Prince Ignus:** Ambitious ruler who might be turned against fire giants
- **Court Politics:** Complex relationships that can be exploited
- **Ancient Grudges:** Historical conflicts between salamanders and fire giants
- **Price of Passage:** What salamanders might demand for allowing passage

Act III: The Titan's Forge

Scene 7: The Fire Giant Stronghold

Setting: The strike force reaches the massive fire giant fortress built around the Eternal Forge, a structure that defies normal architectural principles.

Fortress of the Burning Crown:

- **Scale:** Designed for fire giant inhabitants, everything is enormous
- **Defenses:** Multiple layers of walls, magical barriers, and guardian creatures
- **Population:** 500+ fire giants plus thousands of servants and slaves
- **Central Structure:** The Eternal Forge itself, a massive magical furnace powering the entire invasion

Stronghold Layout:

- **Outer Walls:** Massive fortifications with fire giant artillery positions
- **Industrial Quarter:** Weapon forges, armor workshops, and magical laboratories
- **Military Barracks:** Housing for fire giant soldiers and their equipment
- **Slave Pens:** Prisons holding captives from multiple planes and worlds
- **Noble District:** Palaces and mansions of fire giant lords and commanders
- **The Eternal Forge:** Central chamber containing the massive magical construct

Infiltration Challenges:

- **Size Differential:** Everything is built for beings 3+ times the party's height
- **Magical Defenses:** Wards specifically designed to detect and repel intruders
- **Constant Activity:** Busy stronghold with patrols and workers everywhere
- **Environmental Hazards:** Internal lava flows, extreme heat, and toxic gases

Scene 8: The Slave Liberation

Setting: Deep within the stronghold, the party discovers thousands of enslaved beings from multiple planes being forced to work on fire giant projects.

The Slave Population:

- **Surface Dwellers:** Humans, dwarves, and others captured in recent raids
- **Planar Natives:** Elemental creatures enslaved by fire giant magic

- **Ancient Prisoners:** Beings held captive since the original fire giant wars
- **Specialized Workers:** Artificers, mages, and craftsmen forced to create weapons

Liberation Opportunities:

- **Mass Breakout:** Freeing all slaves simultaneously to create chaos
- **Selective Rescue:** Prioritizing key individuals who can assist the mission
- **Weapon Acquisition:** Arming freed slaves to create internal rebellion
- **Information Gathering:** Learning stronghold layouts and defenses from long-term prisoners

Key Rescued NPCs:

- **Master Smith Thorek Ironbeard:** Dwarven weaponsmith who knows fire giant weaknesses
- **Celestial Warrior Aurelia:** Angel imprisoned for centuries who becomes powerful ally
- **Planar Scholar Vex:** Researcher who understands the Eternal Forge's construction
- **Regional Heroes:** Missing champions from various kingdoms thought dead

The Internal Rebellion: Freed slaves create diversions and sabotage that aids the party's mission while drawing fire giant attention away from critical objectives.

Scene 9: Breaching the Inner Sanctum

Setting: The party must penetrate the heavily defended inner chambers where Overlord Pyroclasm works to complete the Dominion Crown.

The Inner Sanctum:

- **Pyroclasm's Throne Room:** Massive chamber designed to intimidate and impress
- **The Crown Workshop:** Magical laboratory where the artifact is being completed
- **Temporal Distortion:** Time magic accelerating the crown's creation
- **Elite Guards:** Pyroclasm's personal bodyguards and most trusted lieutenants

The Multi-Stage Assault:

- **Outer Defenses:** Fire giant champions and magical barriers

- **Guardian Constructs:** Animated lava golems and fire elemental titans
- **Temporal Maze:** Navigating time-distorted corridors where past and future overlap
- **Final Threshold:** Direct confrontation with Pyroclasm's inner circle

The Crown's Near-Completion: Overlord Pyroclasm is within hours of completing the Dominion Crown. If successful, he will gain control over all fire magic across multiple planes, making him nearly unstoppable.

Act IV: The Final Confrontation

Scene 10: The Eternal Forge Chamber

Setting: The climactic battle takes place in the heart of the fire giant stronghold, where the Eternal Forge powers their entire civilization.

The Forge Chamber:

- **Massive Scale:** A cavern the size of a cathedral filled with magical machinery
- **The Eternal Forge:** Ancient magical construct that has burned for millennia
- **Power Conduits:** Magical energy flowing to every part of the fire giant empire
- **Environmental Extremes:** Heat and magical energy that challenge even protected characters

The Forge's Function:

- **Planar Anchor:** Maintains stability between the elemental and material planes
- **Power Source:** Enhances all fire giant magic and technology
- **Communication Hub:** Coordinates fire giant operations across multiple worlds
- **Weapon Factory:** Creates the most powerful fire giant armaments

Destruction Challenges:

- **Magical Complexity:** The forge is protected by multiple layers of enchantment
- **Structural Integrity:** Destroying it risks catastrophic explosion affecting both planes
- **Active Defense:** The forge itself can fight back with elemental manifestations
- **Time Pressure:** Must be completed before Pyroclasm arrives with reinforcements

Scene 11: Overlord Pyroclasm

Setting: The final confrontation with the ancient fire giant overlord who has orchestrated centuries of warfare against the surface world.

Overlord Pyroclasm the Eternal *Gargantuan giant (fire giant), chaotic evil*

- **Armor Class** 21 (Natural Armor, Dominion Crown)
- **Hit Points** 546 (28d20 + 252)
- **Speed** 50 ft., fly 100 ft.
- **STR** 30 (+10) **DEX** 10 (+0) **CON** 28 (+9) **INT** 18 (+4) **WIS** 16 (+3) **CHA** 23 (+6)
- **Saving Throws** Str +18, Con +17, Wis +11, Cha +14
- **Skills** Athletics +18, Intimidation +22, Perception +11
- **Damage Resistances** bludgeoning, piercing, and slashing from nonmagical attacks
- **Damage Immunities** fire, charmed, frightened
- **Condition Immunities** charmed, exhaustion, frightened
- **Senses** truesight 120 ft., passive Perception 21
- **Languages** Common, Giant, Ignan, telepathy 120 ft.
- **Challenge** 20 (25,000 XP)

Legendary Resistance (4/Day). If Pyroclasm fails a saving throw, he can choose to succeed instead.

Magic Resistance. Pyroclasm has advantage on saving throws against spells and other magical effects.

Fire Aura. At the start of each of Pyroclasm's turns, each creature within 15 feet of him takes 14 (4d6) fire damage.

Dominion Crown. While wearing the crown, Pyroclasm can control all fire within 1 mile, has immunity to all damage types except cold and psychic, and can cast any fire-based spell as a bonus action.

Spellcasting. Pyroclasm is an 18th-level spellcaster. His spellcasting ability is Charisma (spell save DC 22, +14 to hit with spell attacks). He has the following spells prepared:

- **Cantrips (at will):** *fire bolt, mage hand, minor illusion, prestidigitation*

- **1st level (4 slots):** *burning hands, magic missile*
- **2nd level (3 slots):** *scorching ray, misty step*
- **3rd level (3 slots):** *fireball, counterspell*
- **4th level (3 slots):** *wall of fire, greater invisibility*
- **5th level (3 slots):** *cone of cold, dominate person*
- **6th level (1 slot):** *disintegrate, globe of invulnerability*
- **7th level (1 slot):** *fire storm, plane shift*
- **8th level (1 slot):** *meteor swarm, power word stun*
- **9th level (1 slot):** *wish, time stop*

Actions *Multiattack*. Pyroclasm can use his Frightful Presence. He then makes three attacks: two with his Flame Tongue Greatsword and one with his fist or spell.

***Flame Tongue Greatsword* +3.** *Melee Weapon Attack:* +21 to hit, reach 15 ft., one target. *Hit:* 30 (6d6 + 13) slashing damage plus 10 (3d6) fire damage.

Fist. *Melee Weapon Attack:* +18 to hit, reach 15 ft., one target. *Hit:* 23 (3d8 + 10) bludgeoning damage.

Rock. *Ranged Weapon Attack:* +18 to hit, range 60/240 ft., one target. *Hit:* 32 (4d10 + 10) bludgeoning damage.

Frightful Presence. Each creature of Pyroclasm's choice that is within 120 feet of him and aware of him must succeed on a DC 22 Wisdom saving throw or become frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Fire Storm (Recharge 5-6). Pyroclasm creates a storm of fire in a 60-foot radius centered on a point he can see within 150 feet. Each creature in the area must make a DC 22 Dexterity saving throw, taking 42 (12d6) fire damage on a failed save, or half as much damage on a successful one.

Legendary Actions (3 per turn)

- **Move.** Pyroclasm moves up to his speed without provoking opportunity attacks.
- **Attack.** Pyroclasm makes one weapon attack.
- **Cast Spell (Costs 2 Actions).** Pyroclasm casts a spell of 3rd level or lower.

- **Dominion Burst (Costs 3 Actions).** Pyroclasm channels the power of his crown. All creatures within 60 feet must make a DC 22 Constitution saving throw, taking 21 (6d6) fire damage and being stunned until the end of their next turn on a failed save, or half damage and not stunned on a success.

Combat Phases:

- **Phase 1:** Pyroclasm fights normally while completing the Dominion Crown
- **Phase 2:** Crown completed, gains enhanced abilities and environmental control
- **Phase 3:** Desperate final phase where he risks destroying the forge chamber to eliminate the party

Scene 12: The Price of Victory

Setting: With Pyroclasm defeated and the Eternal Forge destroyed, the party faces the consequences of their victory and the difficult choices that determine the adventure's conclusion.

Immediate Consequences:

- **Planar Instability:** Destroying the forge destabilizes the connection between planes
- **Escape Window:** Limited time to return to the Material Plane before portals collapse
- **Fire Giant Army:** Remaining forces must be dealt with or neutralized
- **Alliance Status:** Reports from Material Plane battles determine overall war outcome

The Final Choice: The party discovers that permanently sealing the portals between planes requires someone to remain in the Elemental Plane of Fire to maintain the magical barriers from the fire plane side.

Options:

- **Heroic Sacrifice:** One party member volunteers to remain behind permanently
- **Rotating Watch:** Establish a system where alliance heroes take turns maintaining the seal
- **Magical Alternative:** Use powerful artifacts or spells to automate the seal maintenance
- **Risk Assessment:** Leave the seal incomplete but risk future fire giant resurgence

Victory Conditions:

- **Complete Success:** Portals permanently sealed, fire giant threat eliminated
 - **Partial Success:** Immediate threat ended, but vigilance required for future
 - **Pyrrhic Victory:** Threat eliminated but at enormous cost to heroes or alliance
 - **Temporary Victory:** Fire giants defeated but not permanently prevented from returning
-

Epic Locations

1. The Siege of Ironhaven

The climactic battle where fire giants attempt to establish their primary beachhead

The Battlefield:

- **Portal Zone:** Massive dimensional gateway surrounded by fire giant fortifications
- **Alliance Siege Lines:** Coordinated positions of multiple kingdom armies
- **Urban Combat:** Fighting through city streets and industrial complexes
- **Aerial Theater:** Dragon battles above the ground combat

Tactical Elements:

- **Artillery Duels:** Alliance siege engines vs. fire giant war machines
- **Magical Warfare:** Coordinated spellcasting affecting entire battlefield sections
- **Supply Lines:** Protecting logistical support while disrupting enemy supplies
- **Civilian Evacuation:** Protecting non-combatants while maintaining military effectiveness

2. The Elemental Plane of Fire

An alien realm of eternal flame and molten landscapes

Environmental Features:

- **Floating Islands:** Landmasses suspended in seas of lava
- **Fire Storms:** Magical weather patterns of pure flame
- **Elemental Geysers:** Explosive eruptions of fire and molten rock

- **Gravity Variations:** Unusual physics affecting movement and combat

Native Inhabitants:

- **Fire Elementals:** From tiny wisps to massive titans
- **Salamander Cities:** Organized communities allied with or opposed to fire giants
- **Phoenix Rookeries:** Neutral areas where these legendary creatures nest
- **Lava Whales:** Massive creatures swimming in molten seas

3. The Fortress of the Burning Crown

Fire giant stronghold built around the Eternal Forge

Architectural Features:

- **Titan Scale:** Everything built for inhabitants 15-20 feet tall
- **Living Architecture:** Walls and structures that respond to fire giant commands
- **Defensive Layers:** Multiple concentric fortifications with specialized purposes
- **Central Spire:** Towering structure housing Pyroclasm's throne room and the crown workshop

Key Areas:

- **The Slave Foundries:** Industrial areas where captives are forced to work
- **The Hall of Flames:** Ceremonial chamber where fire giant lords meet
- **The Armory Vaults:** Storage for the most powerful fire giant weapons
- **The Temporal Workshop:** Laboratory where time magic accelerates construction

4. The Eternal Forge Chamber

The heart of fire giant civilization and power

The Forge Itself:

- **Ancient Construction:** Predates current fire giant civilization
- **Magical Fusion:** Technology and magic seamlessly integrated
- **Planar Anchor:** Stabilizes connections between multiple planes
- **Living Machine:** The forge demonstrates intelligence and self-preservation

Chamber Features:

- **Heat Zones:** Different areas with varying levels of environmental danger
 - **Power Conduits:** Magical energy flowing throughout the chamber
 - **Control Mechanisms:** Ancient interfaces for operating the forge
 - **Defense Systems:** Automated guardians and magical protections
-

Legendary NPCs and Enemies

Allied NPCs

Archmage Lysander Starweaver - *20th Level Wizard Male elf, age 350, neutral good* The alliance's primary magical coordinator and keeper of ancient knowledge.

Personality: Brilliant but burdened by centuries of magical study **Role:** Provides strategic magical support and planar expertise **Resources:** Access to 9th level spells, magical artifacts, and ancient libraries **Limitation:** Age and magical strain limit his ability to engage in direct combat

General Amara Ironwill - *15th Level Fighter Female dragonborn, age 45, lawful good* Supreme military commander of the alliance forces.

Personality: Professional soldier with natural leadership abilities **Role:** Coordinates overall military strategy and large-scale battles **Abilities:** Tactical genius with access to elite military units **Character Arc:** Grows from regional commander to legendary military leader

Elena Steelheart - *12th Level Fighter/Rogue Female human, age 29, chaotic good* Leader of the reformed worker's movement and intelligence networks.

Development: From local organizer to regional resistance coordinator **Resources:** Extensive spy networks, popular support, and guerrilla warfare expertise **Role:** Provides intelligence, coordination with civilian populations, and unconventional warfare tactics **Personal Stakes:** Brother Jakob finally rescued from fire giant slavery

Fire Giant Leadership

Overlord Pyroclasm the Eternal The ancient fire giant lord who has orchestrated the centuries-long invasion plan.

Background: Survived the original fire giant wars and swore revenge on surface civilizations **Goals:** Complete domination of the Material Plane and expansion into other realms **Resources:** Massive armies, powerful artifacts, and centuries of strategic planning **Weakness:** Ancient hatred makes him prone to personal vendettas that can be exploited

War-Thane Emberstrike *Huge giant (fire giant), lawful evil* Pyroclasm's primary military commander and strategic planner.

- **Armor Class** 20 (Plate, Shield)
- **Hit Points** 230 (20d12 + 100)
- **Challenge** 15 (13,000 XP)

Military Genius. Can coordinate multiple units and provide tactical bonuses to fire giant forces **Siege Specialist.** Expert in both assault and defense of fortified positions **Veteran Commander.** Immune to fear and provides courage bonuses to nearby allies

Role: Primary tactical opponent in large-scale battles **Personality:** Coldly professional, values military efficiency over personal glory **Tactics:** Prefers overwhelming force and careful preparation to risky gambits

Forge-Mistress Pyritha *Large giant (fire giant), neutral evil* Chief engineer and magical theorist responsible for the Eternal Forge's operation.

Abilities: Can control forge machinery and summon elemental guardians **Knowledge:** Understands the forge's construction and potential weaknesses **Role:** Primary opponent during the forge infiltration sequence **Vulnerability:** Obsessed with her creation and may hesitate to see it destroyed

Dragon Enemies

Ancient Red Dragon Pyrothane *Gargantuan dragon, chaotic evil* Leader of the fire giant dragon wing and Pyroclasm's primary aerial commander.

- **Armor Class** 22 (Natural Armor)

- **Hit Points** 546 (28d20 + 252)
- **Challenge** 24 (62,000 XP)

Legendary Resistance (3/Day) Frightful Presence Fire Immunity

Spellcasting. 13th level caster with fire-focused spell selection

Personality: Arrogant and cruel, delights in terror and destruction **Tactics:** Prefers aerial superiority and coordinated attacks with other dragons **Relationship:** Ally of convenience with fire giants, not truly loyal

Mass Combat and Warfare

Battle System

Large-Scale Combat Resolution: Use simplified mass combat rules where the party's actions influence the outcome of massive battles involving thousands of combatants.

Battle Phases:

1. **Reconnaissance:** Gathering intelligence affects tactical bonuses
2. **Deployment:** Strategic positioning determines initial advantages
3. **Engagement:** Party actions during key moments influence overall battle
4. **Resolution:** Combined results determine victory, defeat, or stalemate

Party Influence on Mass Combat:

- **Heroic Actions:** Direct combat achievements provide army-wide morale bonuses
- **Tactical Decisions:** Strategic choices affect entire battle outcomes
- **Special Missions:** Completing objectives during battle (destroying siege engines, eliminating enemy commanders)
- **Magic Coordination:** Large-scale spell effects that can turn the tide

Battle Outcome Effects:

- **Decisive Victory:** Eliminates enemy forces, captures territory and resources
- **Marginal Victory:** Achieves objectives but at significant cost
- **Stalemate:** Neither side gains advantage, prolonging the conflict

- **Tactical Defeat:** Loss of position but forces remain intact for future battles
- **Decisive Defeat:** Major loss requiring strategic withdrawal and reorganization

Notable Battles

The Siege of Ironhaven

- **Forces:** 8,000 alliance troops vs. 3,000 fire giants plus elementals
- **Duration:** 3 days of continuous fighting
- **Key Moments:** Dragon aerial assault, portal breakthrough attempt, alliance counterattack
- **Party Role:** Leading critical missions while coordinating overall defense

The Battle of the Floating Islands

- **Location:** Elemental Plane of Fire, contested territory
- **Forces:** Alliance strike force vs. salamander city defenders
- **Unique Elements:** Three-dimensional battlefield with flying and swimming combat
- **Objectives:** Securing passage route to fire giant stronghold

The Storming of the Burning Crown

- **Location:** Fire giant fortress complex
- **Forces:** Elite strike force vs. fortress garrison
- **Special Conditions:** Environmental hazards, scale differences, magical defenses
- **Climax:** Multiple simultaneous objectives requiring perfect coordination

Army Unit Statistics

Alliance Forces:

Royal Infantry Battalion

- **Size:** 500 soldiers
- **Attack Bonus:** +6
- **Damage:** 3d10
- **AC:** 16 (Chain mail, shields)

- **Hit Points:** 200
- **Morale:** +4
- **Special:** Disciplined formation fighting

Dwarven Heavy Infantry

- **Size:** 300 soldiers
- **Attack Bonus:** +8
- **Damage:** 4d8
- **AC:** 18 (Plate armor)
- **Hit Points:** 250
- **Morale:** +6
- **Special:** Fire resistance, siege expertise

Elven Archer Companies

- **Size:** 200 archers
- **Attack Bonus:** +7 (ranged)
- **Damage:** 3d8
- **AC:** 14 (Leather armor)
- **Hit Points:** 150
- **Morale:** +3
- **Special:** Long range, mobility

Cavalry Squadrons

- **Size:** 100 mounted warriors
- **Attack Bonus:** +7
- **Damage:** 4d6 + charge damage
- **AC:** 17 (Chain mail, mounted)
- **Hit Points:** 180
- **Morale:** +5

- **Special:** High mobility, charge attacks

Fire Giant Forces:

Fire Giant War Band

- **Size:** 50 fire giants
- **Attack Bonus:** +11
- **Damage:** 6d6
- **AC:** 18 (Plate armor)
- **Hit Points:** 400
- **Morale:** +8
- **Special:** Fire immunity, giant strength

Elemental Horde

- **Size:** 200 fire elementals
- **Attack Bonus:** +6
- **Damage:** 4d6 + fire aura
- **AC:** 13
- **Hit Points:** 300
- **Morale:** Fearless
- **Special:** Fire immunity, incorporeal movement

Dragon Flight

- **Size:** 4 adult red dragons

Mass Combat Mechanics

Initiative and Activation:

- **Round Duration:** Each mass combat round represents 10 minutes of battle
- **Unit Activation:** Each unit acts once per round in initiative order
- **Hero Actions:** Party members can take individual actions during mass combat rounds
- **Command Actions:** Officers can coordinate multiple units

Morale System:

- **Starting Morale:** Based on unit training, leadership, and circumstances
- **Morale Checks:** Required when taking heavy casualties or witnessing terror effects
- **Morale Effects:** High morale provides attack bonuses, low morale causes penalties
- **Breaking Point:** Units at 0 morale retreat or surrender

Terrain and Environmental Factors:

- **High Ground:** +2 to attack rolls and morale
- **Fortifications:** +4 AC bonus and defensive advantages
- **Weather:** Various effects on movement, visibility, and magic
- **Magical Terrain:** Planar effects or battlefield spells affecting large areas

Victory Conditions:

- **Route:** Enemy forces retreat from the battlefield
- **Objective Control:** Capturing key strategic points
- **Commander Elimination:** Defeating enemy leadership
- **Time Limits:** Achieving goals before reinforcements arrive

Special Rules for Epic Battles

Legendary Actions in Mass Combat: Party members can spend legendary-style actions to influence mass combat:

- **Rally Troops:** Restore morale to friendly units
- **Heroic Charge:** Lead personal attacks that inspire nearby units

- **Tactical Coordination:** Provide bonuses to multiple units
- **Magic Amplification:** Enhance spells to affect entire battlefield areas

Dragon Combat in Mass Battles:

- **Aerial Superiority:** Dragons can attack any unit on the battlefield
- **Breath Weapons:** Area attacks affecting multiple army units
- **Fear Effects:** Dragon presence affects morale of nearby enemy units
- **Anti-Dragon Tactics:** Coordinated attacks from multiple units

Siege Warfare:

- **Siege Engines:** Ballistas, catapults, and magical artillery
- **Wall Breaching:** Systematic destruction of fortifications
- **Escalade:** Scaling walls and direct assault tactics
- **Sapping:** Undermining fortifications through tunneling

Magical Warfare:

- **Battle Magic:** Large-scale spells affecting entire units
- **Counter-Spelling:** Magical defenses against enemy magic
- **Magical Artillery:** Spell effects used as siege weapons
- **Planar Effects:** Battlefield magic unique to extraplanar locations
